

## Hey You Handsome Vulture

Sunset Rubdown

Hey you handsome vulture  
what you got hiding under there???

You got my hands tied  
you got your hands behind your back

I take it all's ok you handsome vulture  
with all your charm and wit and escapades

You're making me pick you son of a bitch  
you're making me pick one

You ask me about my absences  
then you make some of your own

You ask me about my absences  
then you make some of your own
