

Disco Bands

Sunset Sons

Take my hand
There's disco bands
In the city tonight
We make no plans
So let's go dance
In the city tonight

And you weren't knowing
The night sky is glowing
The drums are getting closer
And the city ignites

Every time you touch me
Music takes a hold of me
Dancing till the morning light
Take my hand, I promise
You won't regret it how it ends
In the city tonight

Take my hand
There's disco bands
In the city tonight

And you weren't knowing
The night sky is glowing
The drums are getting closer
And the city ignites

Every time you touch me
Music takes a hold of me
Dancing till the morning light
Take my hand, I promise
You won't regret it how it ends
In the city tonight

And you weren't knowing
The night sky is glowing
The drums are getting closer
And the city ignites

Every time you touch me
Music takes a hold of me
Dancing till the morning light
Take my hand, I promise
You won't regret it how it ends
In the city tonight

In the city tonight
Every time you touch me
Music takes a hold of me
Dancing till the morning lights
