# Live & Learn

**Sunset Sons**

Breathe in, breathe out
I'm back in my home town
We live, and we learn
But some fires, they still burn

See good, some bad
Can't help but not look back
But we live, and we learn
Or maybe that just words

When I fall down, girl, I know
You're the gravity that runs through my veins
Is it too late for me to fall
With you

When I fall down, girl, I know
You're the gravity that runs through my veins
Is it too late for me to fall
With you

Breathe in, breathe out
Sometimes I dream about
But we live, and we learn
Some fires, they always burn

When I fall down, girl, I know
You're the gravity that runs through my veins
Is it too late for me to fall
With you
When I fall down, girl, I know
You're the gravity that runs through my veins
Is it too late for me to fall
With you

(When I fall down)
(When I fall down)

And those fires, they still burn
And those fires, they still burn

When I fall down, girl, I know
You're the gravity that runs through my veins
Is it too late for me to fall
With you

My world, spins around, oh like in film
At the silence of the words you put away
It's too late for me to fall
For you
