

# Magic

## Sunset Sons

We're all livin' on a fine line  
I coulda never seen this timeline  
That we'd ever have to say  
Hold a feather to the wind, close your eyes  
Let it fly away  
You know we'll never let you go  
That forever be a no no  
We'll be riding high and wasting time  
Livin' like we know

Can't put your arms around a memory  
Picture your smile and it set us free  
With tears we pay  
Cause nothin' has changed  
Say goodbye as we drive away  
Every night was your show  
Yeah, we all know that you know  
No dry eyes  
But still we smile

Cause this could be magic  
This is your birthday  
We are just dancing  
Feeling your love now  
Never alone now  
We are just dancing

And everything you were was something special to be

Life is a coin with two sides  
Don't get to choose if it falls right  
Yeah, the line we take  
Sometimes it breaks  
But together we can find a way  
Lift our eyes to the sky  
Kiss the clouds as they fly by  
Then the truth hits home  
We're never alone  
We love you you know  
Now in time we will learn to be  
The weight it falls as we set you free  
But you'll make it fine  
Cause that's your style

This could be magic  
This is your birthday  
We are just dancing  
Feeling your love now  
Never alone now  
We are just dancing  
All we can give you  
A song you could move too  
To say goodbye

And everything you were was something special to be

It was just so good

It was just so good

Magic emotions, oh oh  
She's got that magic  
It's her moment she knows  
This could be magic this your birthday  
We are just dancing  
Feeling your love now  
Never alone now  
Just keep on dancing

And everything you were was something special to be

It was just so good  
It was just so good
