

Medicine

Sunset Sons

Every clear, you are to every clear
Shame I'm on, just never near
To hell you say
Forever more, I'll always be for the cause
You was the help medicine since of everything

Oh, I'm forever leaving
Through all these lonely days
All I know is Katie you're the reason
All my guns out here to live
All I love, the devil goes a long turn
Katie you're my medicine,
Medicine to me

I woken up, I finally spoken up
Now it's the time to take my wrongs
And make them right
Oh I'm forever leaving,
Through all these lonely days
All I know is Katie you're the reason
All my guns out here to live
All I love, the devil goes a long turn
Katie you're my medicine,
Medicine to me, medicine to me

My fears, my faults, my broken oath
My stars, my words, stuck in my throat
My fears, my faults, my broken oath
My lies, my tears, for you alone
My fears, my faults, my broken oath
My skies, my words, stuck in my throat
My fears, my faults, my broken oath
My lies, my tears, for you alone

Come found me, hell I'm bleeding
What's still left to say
All I know is Katie you're the reason
All I know is out here to live
All I love, the devil goes a long turn
Katie you're my medicine,
Medicine to me, medicine to me
