

2nd Fiddle

Sunshine Anderson

You had me wrapped around your middle finger
Found a way to twist this R'n'B singer
You had me goin', not even knowin'
'Bout the other girl, oh

Just like had a good thing but found the way to mess up
Least you could be man enough to 'fess up
To how you've been creepn'
So, babe, I'm leavin', oh, oh

See I won't be playin' 2nd fiddle
To anyone on any day, baby
And I know it's gonna hurt a little
For a while, but I have to end it now

Who is she? And furthermore where did she come from?
Can't believe that I was so dumb
I saw no signs, come to find out
She was there the whole time, ooh, ooh

So it's time for me to back out
Better be glad I ain't caught doing black out
Over you
But you ain't really worth it, no

See I won't be playin' 2nd fiddle
To anyone on any day, baby
And I know it's gonna hurt a little
For a while but I have to end it now

Ain't even tryin' to hear, "No, baby, let's work it out"
'Cause I don't believe a word out of your mouth
You already showed your hand and what you are about
It's nothing, baby, it's nothing, baby

See I won't be playin' 2nd fiddle
To anyone on any day, baby
And I know it's gonna hurt a little
For a while but I have to end it now

See I won't be playin' 2nd fiddle
To anyone on any day, baby
And I know it's gonna hurt a little
For a while but I have to end it now
