

## Insomnia

## Sunshine

yes, I am a digital  
silver clouds running  
through my metal dreams  
dark moon rising  
I am insomniac  
give me a call  
I am a digital crack

all my neurosis  
move down by water  
they disappeared  
I'll keep you forever  
I am insomniac  
the labyrinths over, the labyrinths over!

Is it a killing joke?  
I never see  
the light of day, the light of night  
all that glitters inside of me  
badly screamed  
but I don't believe them  
I am insomniac  
give me a proof  
that the obscure show is over  
in the heat of the night  
I would show you  
piece of my death, that labyrinths over!

I am insomniac, I am insomniac  
I never see the light of day  
I never see the light of night  
this morning is over

isolations gone  
but desolation is coming  
isolations gone  
all changes over, all changes over
