

Karmageddon

Sunshine

testimony of silence
new future destroyed the light
give us masks and we will
tell the truth coz
we got demons to fight
we got demons to fight
we got demons to fight
we got demons to fight
we got demons to fight

wake up in different places
moments away from the dream
give us masks and we will
tell the truth coz
the fire has to be seen
has to be seen
has to be seen
has to be seen
has to be seen

karmageddon!
karmageddon!
karmageddon!
karmageddon!

invisible nightmare
new noise is coming by night
give us masks and we will
tell the truth coz
we got demons to fight
we got demons to fight
we got demons to fight
we got demons to fight
we got demons to fight

karmageddon!
karmageddon!
karmageddon!
karmageddon!

watch out, watch out
watch out, watch out
watch out, watch out
watch out, watch out

karmageddon!
karmageddon!
karmageddon!
karmageddon!
