

# Poltergeist

Sunshine

spit out your anger  
cold, blood and tears  
scars on our bodies  
poison ivy leaves  
i wish for blue monday  
i wish to know  
how to make you happy  
dance on the snow  
dance on the snow  
dance on the snow

why try to change what never changes anyway  
only you know which side of me died yesterday  
you don't know what's hidden inside of me  
do i love you more than i can see?  
this entertains us  
entertains us  
entertains us

don't make me suffer  
this could go any way  
i wish i loved her  
this could end any day  
poltergeist on my shoulder  
levitates and screams  
keeps saying: i told you so  
i am living in my dream

living in my dream  
living in my dream

why try to change what never changes anyway  
only you know which side of me died yesterday  
you don't know what's hidden inside of me  
do i love you more than i can see?  
this entertains us  
entertains us  
entertains us

dance on the snow  
dance on the snow  
this entertains us  
dance on the snow  
this entertains us  
dance on the snow  
this entertains us  
this entertains us  
this entertains us  
this entertains us

why try to change what never changes anyway  
only you know which side of me died yesterday  
you don't know what's hidden inside of me  
do i love you more than i can see?  
this entertains us  
entertains us  
entertains us

you don't know what's hidden inside of me  
do i love you more than i can see?  
this entertains us  
entertains us  
entertains us
