

## Pull the Trigger

Sunshine

Stop, stop your panic now  
Systematic shame and "why"  
Every day and every night  
Your lucky constellation died  
Won't you please step inside  
Take this back and leave your pride  
Just wanna believe in a day  
When the heart will catch the beat  
Get away from melting lies  
It's time for us to take defeat  
We'd rather die

Stop stop you've got so low  
Take the breath and start the scream  
Get the scissors in your shaking  
Hand cut out the bloody dream  
If you talk, they're back again  
And if you move, it's better then  
Just wanna believe in the day  
When the heart will catch the beat  
Get away from melting lies  
It's time for us to take defeat

We'd rather die

Why you gonna blame your mother  
It's all gonna be alright  
Why you gonna kill your brother  
We can always win the fight  
They're laughing now  
They track me every day  
Can't you see they're runnning  
Straight away?

Gunshot!shut up, give me a break  
I cannot take it  
It's not a beautiful day  
I've got a message for all you cheaters who try to fake it  
Gunshot is the way

I hear myself, I've been around  
I sold my soul, I'm not allowed  
Just wanna believe

Why you gonna blame your mother  
It's all gonna be alright  
Why you gonna kill your brother  
We can always win the fight  
They're laughing now  
They track me every day  
Can't you see they're runnning  
Straight away?

Gushot!shut up.give me a break....  
Are they the bullets, the charms of crime  
Guess what is at the end of the line

They're laughing now  
They track me every day  
Can't you see they're running  
Straight away?

Gunshot! shut up, give me a break  
I cannot take it  
It's not a beautiful day  
I've got a message for all you cheaters who try to fake it  
Gunshot is the way
