

# DEADWEIGHT

Sunsleep

For years far too long I have held this weight on my own  
Four mouths there to feed speaking out but never willing to bleed alone  
Guess I'll do this on my own

I can't take  
Oh no, I can't take

All this deadweight  
Weighing me down, weighing me down  
I can't take this deadweight  
Breaking away I can't take your deadweight  
Deadweight

Always left up to me make it happen rinse repeat  
And split the difference when no one earned it  
My back will break internally  
Give what you got but never take away  
Holding up the deadweight

I can't take  
Oh no, I can't take  
Oh no, I can't take  
My backs about to break

From all this deadweight  
Weighing me down, weighing me down  
I can't take this deadweight  
Breaking away I can't take  
All this deadweight  
I can't take  
All this deadweight

(All this deadweight  
All this deadweight)

I can't take  
Oh no, I can't take  
Oh no, I can't take  
All this deadweight

You're deadweight  
I can't take  
All this deadweight  
Weighing me down, weighing me down  
I can't take this deadweight  
Breaking away I can't take  
All this deadweight  
I can't take  
All this deadweight

All this deadweight  
All this deadweight
