

# Golden Eyes

Sunsleep

You wanted answers  
And we sing along  
Cut to the chase, yeah  
Now you're wondering  
Could it convince him  
If we leave it all out on the table  
But you won't let go

Wonder if you  
I wonder if  
I wonder if you

I wonder if you  
Were even listening to a word I said  
I can't get it through  
Unless you let me in and open up to it

Subtle beginnings  
Moving all along  
Hitting no ceiling  
But yet we're falling off  
All of our attentions  
How could we get it wrong  
And your commitment, wasn't it enough?

Can't get through to you  
Golden eyes, golden eyes  
Staring back at you  
Shoulders high, you're on fire  
Now we're overdue  
Out of time, draw the line  
Show me something new  
So inspired, on the wire

I wonder if you  
Were even listening to a word I said  
I can't get it through  
Unless you let me in and open up to it

We're running out of time  
Can you draw the line?  
You've got golden eyes  
We're running out of time  
Can you draw the line?  
You've got golden eyes

(Wonder if you  
Wonder if  
Wonder if you  
Wonder if  
Wonder if you)

I wonder if you  
I wonder if you, yeah

I wonder if you  
Were even listening to a word I said

I can't get it through  
Unless you let me in and open up to it

We're running out of time  
Can you draw the line?  
You've got golden eyes  
We're running out of time  
Can you draw the line?  
You've got golden eyes  
(Out of time  
Draw the line  
Golden eyes)
