

Moonlight Euphoria

Sunsleep

Every night I feel you lying next to me
'Till we fade away in our own dreams
Following me down inside a memory
Underneath the sheets, it's a long way

Back to another life
Somewhere between all of time
Chasing figures in the night
Faces that got lost in time
This bliss is what you'll find
There when you close your eyes tonight
I feel it now

Moonlight euphoria
Is this a dream?
These highs we reach
Open the door beyond
Horizons bleed
The night is here

Close your eyes, relive another memory
Feels like yesterday though a moonlit haze
Feeling more alive somewhere inside a dream
Take the pain away with a melody

It's intoxicating euphoria
Take me somewhere so familiar
With the moonlight dance sinking through your skin
Tell me, darling, do you feel it now?

Moonlight euphoria
Is this a dream?
These highs we reach
Open the door beyond
Horizons bleed
The night is here

Back to another life
Somewhere between all of time
Chasing figures in the night
Faces that got lost in time
This bliss is what you'll find
There when you close your eyes
Tonight, I feel it now

Woah, oh, oh
Woah, oh, oh, oh
Moonlight euphoria
Woah, oh, oh
Woah, oh, oh, oh
Moonlight euphoria

Woah, oh, oh
Woah, oh, oh, oh
Moonlight euphoria
Woah, oh, oh
Woah, oh, oh, oh

Moonlight euphoria
