

# Pressure

Sunsleep

Hold me to my best when at my worst  
I'm no stranger to the wave pushing against me  
Feel the pressure build until you burst  
Cut that tension with a knife  
Count to three and close your eyes

Can you feel it coming up  
Bracing for the impact of your love  
But is it soon enough to realize?  
I don't feel a thing, I don't feel a thing  
I don't feel a thing, I don't feel anything  
I don't feel a thing, I don't feel a thing  
I don't feel...

And now we're going up  
Push me 'till I feel nothing at all  
Can you feel it build, can you feel it building up  
The pressure I'm building up  
The pressure I'm...

Sleepless nights, I think I've had enough  
Yeah, you know I'm not a stranger to your apathy  
The pressure comes from deep inside the good  
Can you carry all the weight of that pressure to delay it

Can you feel it coming up  
Bracing for the impact of your love  
But is it soon enough to realize

And now we're going up  
Push me 'till I feel nothing at all  
Can you feel it build, can you feel it building up  
The pressure I'm building up  
The pressure I'm building up  
The pressure I'm building up  
The pressure I'm...

I don't feel a thing, I don't feel a thing  
I don't feel a thing, I don't feel anything  
I don't feel a thing, I don't feel a thing  
I don't feel...

I don't feel a thing, I don't feel a thing  
I don't feel a thing, I don't feel a thing

And now we're going up  
Push me 'till I feel nothing at all  
Can you feel it build, can you feel it building up  
The pressure I'm building up  
The pressure I'm building up  
The pressure I'm building up  
The pressure I'm...

Push me 'till I hit a wall  
And now I feel nothing at all  
This pressure builds until it breaks  
But I won't let it bury me
