

Rain

Sunsleep

Take a breath in at a time surrounded by the sound
An old familiar friend falls to the ground

Like a passing tide up in the sky that brings me back to life
Rejuvenate the wounds within yourself

With the rain falling
Wash it all away
Oceans above coming down

Let it take you away as it washes over
Falling down like the rain oh

Everywhere you look the water rushes to the floor
Could it drown you if we opened the door

With the rain falling
Wash it all away
Oceans above coming down

Let it take you
Let it take you away
Let it take you
Let it take you away

Let it take you away as it washes over
Falling down like the rain oh
And if you won't let go of all this hurt it fills up till it po
urs out of you
Let it all come out till breaking down the door as it washes ov
er

Let it take you away (let it take you away) as it washes over
Falling down like the rain oh (falling down like the rain)
And if you won't let go of all this hurt (let go)
It fills up till it pours out of you (it pours out of you)
Let it all come out till breaking down the door as it washes ov
er

Let it take you away
Falling down like the rain
