

## Don't Walk Away from a Goodbye

Sunstorm

You're leaving me the spiral  
The future seems so dark ?  
Will leave me denial  
If you leave another words untold  
Life's so low ?  
If you don't lose a faith in you  
Open your soul to the world  
What's pulling you?  
What's holding you down in hell ?  
It's time to fly

Don't walk away from from the goodbye  
If someone's keeping you away from the light  
That shines in your eyes  
Just laugh your past behind your back  
There's more to life than just to feel a regret  
Don't walk away from a goodbye  
Ohh no

You're trembling like the leaf  
When wind is not fitting from the north  
In every minute the life and peace ?  
What's the reason for this back and forth  
Life's a low round  
Keep you the blues and faith in you  
Open your soul to the world  
What's pulling you?  
What's holding you down in hell  
It's time to fly

Don't walk away from from the goodbye  
If someone's keeping you away from the light  
That shines in your eyes  
Just laugh your past behind your back  
There's more to life than just to feel a regret  
Don't walk away from a goodbye  
Ohh no

Don't walk away from from the goodbye  
If someone's keeping you away from the light  
That shines in your eyes  
Just laugh your past behind your back  
There's more to life than just to feel a regret  
Don't walk away from a goodbye  
Ohh don't walk away from a goodbye
