

# Here for You Tonight

Sunstorm

Hiding in shadows  
Like prayers in the dark  
We're lost in transition  
Found in hyperlapse

Smoke and mirrors  
Double vision  
We're alone again  
In a game of lies

Can't bring back yesterday  
Pave for tomorrow

Will you hide forever  
Like a whisper in the wind  
Where is our future life together  
We're what dreamed  
For our paradise  
I'm here for you tonight

Ain't no solution  
In this house of cards  
No matter the outcome  
We're both gonna lose

Can't bring back yesterday  
Pave for tomorrow

Will you be hiding forever  
Like a whisper in the wind  
Where is our life together  
In a future what would bring  
All we dreamed  
For our paradise  
I'm here for you tonight
