

# I Found a Way

Sunstorm

Lying in this lonely room  
Wasn't what I meant to be  
Don't see me on your way  
Your way back home

Aiming to the sky above  
While pulling down your heavy soul  
I couldn't even say my name  
Who was to blame

I'm coming back for more  
Living my life to the core

I found my way to say goodbye  
To the man I used to be  
To fill this empty space with love  
Feel like I'm born gain  
Don't wanna go I'm here to stay  
All I needed was a prayer

I lost inside my blues  
I ouldn't take away the pain  
Didn't wanna leave you there  
Out in The cold

I'm coming back for more  
Living my life to the core

I found my way to say goodbye  
To the man I used to be  
To fill this empty space with love  
Feel like I'm born gain  
Don't wanna go I'm here to stay  
All I needed was a prayer

I found my way to say goodbye  
To the man I used to be  
To fill this empty space with love  
Feel like I'm born gain  
Don't wanna go I'm here to stay  
All I needed was a prayer
