

Lost Forever

Sunstorm

Open your eyes to see
What is wrong with you and I
Try to look deep in me
You'll see that I can't lie

We can walk a different road
We can try to be best friends
But we'll be lonely if go our separate way

I can't live without your love
Now that is over
I can't take away the pain
In this heart of mine
I'm lost forever

Tell me what made you feel like this
I had no idea of what could ache
Hanging on in our bliss
We never thought our bond could break

We can walk a different road
We can try to be best friends
But we'll be lonely if go our separate way

I can't live without your love
Now that is over
I can't take away the pain
In this heart of mine
I'm lost forever

I can't live without your love
Now that is over
I can't take away the pain
In this heart of mine
I'm lost forever
