

Lost in the Shadows of Love

Sunstorm

If you feel you're
Digging shaky grounds
And feel you're desperate
Change the way you're
Looking at yourself
Push away all that hate

Can you feel the power
Coming out of you?

When all is lost I won't let you down
Hanging on me again
When hope is gone
I won't fade away
Leaving you far behind
Lost in the shadows of love

Devil's always ready at your door
Tempting you with his lies

Watch out for the ghosts
Of your past
That's where your spirit dies

Can you feel the power
Coming out of you?

When all is lost I won't let you down
Hanging on me again
When hope is gone
I won't fade away
Leaving you far behind
Lost in the shadows of love

When all is lost I won't let you down
Hanging on me again
When hope is gone

I won't fade away
Leaving you far behind
Lost in the shadows of love
