

# Miracle

Sunstorm

Remember the times  
When we were together  
Burning the city lights  
Couldn't care less about  
Any weather  
Living by night

Where have those days gone?  
Why did we leave our life behind?  
If we just believe

There can be a miracle  
For us to come back again  
Miracle  
We just cannot wait for another day

I cannot forget how easy it was  
Loving and living  
We never realised that time was  
Running too fast

Where have those days gone?  
Why did we leave our life behind?  
If we just believe

There can be a miracle  
For us to come back again  
Miracle  
We just cannot wait for another day

Give me the strength to carry on  
Give me another chance  
To find my path again

Where have those days gone?  
Why did we leave our life behind?  
If we just believe

There can be a miracle  
For us to come back again  
Miracle  
We just cannot wait for another day
