

# One Step Closer

Sunstorm

I don't know where I'm going  
This is driving em crazy  
I only sit and wonder  
Where this is going to end

I feel a burning fire  
Turning me into desire  
I can only live if I go through emotions  
And be the man I can be

I'm one step closer to heaven  
Hell can wait long for me  
I was just one step closer from falling  
Lower than I've ever been  
Give me love, give me hate  
Give me power and pain  
Give me life over all  
One step closer to heaven  
That's where I wanna be

I've been trying lately  
To hold the flame of this fire  
Surrounding myself with just  
Care and happiness

Whenever you can hold me  
I can feel you pull me much higher  
I can only live if I go through the motion  
Of giving what I can give

I'm one step closer to heaven  
Hell can wait long for me  
I was just one step closer from falling  
Lower than I've ever been  
Give me love, give me hate  
Give me power and pain  
Give me life over all  
One step closer to heaven  
That's where I wanna be

I've got so much left to give  
Don't wanna hold it anymore  
But if rain comes again  
I'll push even more
