

# Resurrection

Sunstorm

In a world that falls everyday without values  
It's better to recall the nature of mankind  
Our fate can't predicted, can't change yesterday  
We can win the race the masters of our time

The best is yet to come  
We'll live faster than the speed of light

Ride away the moment now has come  
We don't need to stay our journey has begun  
Searching for the secret behind life  
Down to the care, gonna rise up and fight  
Resurrection  
Resurrection

Trapped inside the walls they built all around us  
And when the curtain falls we see the shadows of the past  
Can't take my away life, won't set aside my dreams  
Gonna find a way, there is no coming back

The best is yet to come  
We'll live faster than the speed of light

Ride away the moment now has come  
We don't need to stay our journey has begun  
Searching for the secret behind life  
Down to the care, gonna rise up and fight  
Resurrection

Ride away the moment now has come  
We don't need to stay our journey has begun  
Searching for the secret behind life  
Down to the care, gonna rise up and fight  
Resurrection  
Resurrection  
Resurrection
