

Standing in the Fire

Sunstorm

Take it easy, baby
Don't want no trouble tonight
You make me crazy
But I'm not looking for a fight
No need to worry
The feeling's coming on strong
So strong
You better hurry
Cause we've already
Waited too long

I wanna taste you
I know your love is sweet
I wanna take you
Can't you feel the heat?

Got me standing In the fire of love
Standing in the fire
Got me standing In the fire of love
Standing in the fire

Move a little closer
Tell me you love me again
Now roll me over
My temperature's a hundred and ten
Got me shacking
Got me weak in the knees
I'm yours for the taking
I'm bagging you baby, please

I wanna taste you
I know your love is sweet
I wanna take you
Can't you feel the heat?

Got me standing In the fire of love
Standing in the fire
Got me standing In the fire of love
Standing in the fire
You got me standing In the fire of love
Standing in the fire
Baby, got me standing In the fire of love
Standing in the fire

Standing In the fire of love
Standing in the fire
Standing In the fire of love
Standing in the fire
You got me standing In the fire of love
Standing in the fire
Oh, Standing In the fire of love
Standing in the fire
Oh yeah, baby
Standing in the fire
