

# The Darkness of This Dawn

Sunstorm

Once we were friends once we were one  
Nothing could divide us  
We didn't know that life could be so tough  
How many nights we faced  
Dreaming what would be our future to come  
We never fought all our battles should it start ok

We left all our dreams behind that door  
Why did we throw away the key  
Why am I here with all these words unspoken  
You left me there out in the cold  
Without a reason to go on  
How could you leave the best outside  
In the darkness of this dawn

Can I turn back all the time we lost  
Can I keep this darkness out  
Feel like something out the best part of me

We left all our dreams behind that door  
Why did we throw away the key  
Why am I here with all these words unspoken  
You left me there out in the cold  
Without a reason to go on  
How could you leave the best outside  
In the darkness of this dawn

Ohh  
Oh yeah yeah yeah

You left me there out in the cold  
Without a reason to go on  
How could you leave the best outside  
In the darkness of this dawn  
You left me there out in the cold  
Without a reason to go on  
How could you leave the best outside  
In the darkness of this dawn
