Just touched down back in town I been on the road
I been on a wave, I been turnin lead into solid gold
I mean I know that you see me, I know that you know that this ain't CGI and a nigga not in front of no green screen
No special effects, know I wouldn't misdirect like that
Imma keep it a buck witchu
I fuck with you
Manu Ginobli shit how I handle the pearls and they roll off the wrist tap backboard baby I'm just tryna lay up with you
May-be smoke a blunt witchu
(I mean) I prefer papers
Watch the smoke dance like a stove dance
And I space till it ain't nothin but vapors
Between us, water the cleanest
Have mercy from Jesus
I practice the telekinesis so I ain't gotta say it the feelings cerebral
(I know)
These cooped up emotions can get put in motion yeah I'm tryna reap what I sow
(I'm tryna reap what I sow)
Sowin seeds and so it seems
You concede to this poetry
Flow-etry and some weed baby you can grow with me just, know with me that, all you ever, got to do is, chill
