

DOMESTICATE

Supa Bwe

You bring me joy, you bring it every day
I want your body weighing on my heart
You tried so hard to domesticate
I'm not a dog, I'm a work of art
I hope we grow, I hope we never change
I hope you never have a change of heart
You bring me joy, you bring every day
I want your body weighing on my heart

I make you make, those sounds you make
Now come here, put that pussy in my face
Play with your body like a broken heart
I'm striking chords that make you overthink
I make you make, those sounds you make
Now come and put that pussy in my face
Play with your body like a broken heart
I'm striking chords that make you overthink

You bring me joy, you bring it every day
I want your body weighing on my heart
You tried so hard to domesticate
I'm not a dog, I'm a work of art
I hope we grow, I hope we never change
I hope you never have a change of heart
You bring me joy, you bring every day
I want your body weighing on my heart
