

Hawaii

Supa Bwe

I call you my moon because you're so much more than the world to me
I call you a goddess cause you're so much more than a girl to me
I'ma show you my cards, cause baby you held me down, back when I was
still sleeping outa cars

Aye

My cup half full, I can never fill it up
New age jack-boy, I don't really give a fuck
I come from the Raq boy I will never give it up

Try and take my chain, I will never give it up
Try and take my chain, I'ma turn you into Kennedy
That boy lost his head, steady tryna get ahead of me
I'ma kick his door, beat his head and leave with everything

I got all this magic what do you do?
Take you somewhere shopping you ain't used to
Hit Hawaii, get a wrangler, we go zoom zoom

Get a range on em
You used to be a catapillar but you changed on em
I used to be a broke nigga but I changed on em
God gave us a purpose I can feel it
Don't have me in my feelings for no reason

Aye

My cup half full, I can never fill it up
New age jack-boy, I don't really give a fuck
I come from the Raq boy I will never give it up

Try and take my chain, I will never give it up
Try and take my chain, I'ma turn you into Kennedy
That boy lost his head, steady tryna get ahead of me
I'ma kick his door, beat his head and leave with everything

I told my mama don't worry, don't worry Mama I got ya
I see the weight on ya shoulders, don't worry mama I'll spot ya
We made it outa the trenches, we made it outa the slaughter
So I get money with a vengeance, I get this money I gotta

I told my girl to not worry, that's my lil sweet horchata
I call you my moon because you're so much more than the world to me
I call you a goddess cause you're so much more than a girl to me
I'ma show you my cards, cause baby you held me down, back when I was
still sleeping outa cars

All of this success, yeah I owe it all to y'all
