

I'll Never Be The Same

Supa Bwe

Ah, ah, ah, ah, ah

She call everybody toxic, so I know I'm not the only one
But shorty got that faucet, but I know I'm not the only one
I don't wanna jump to conclusions
Big Glock on me but I never wanna jump the gun
Shorty right beside me but I know it's all over

I'll never be the same
I will never be the same
I will never be the same
I'll never be the same
I will never be the same
I will never be the same
I'll never be the same

I want to be your everything, cause you already mine
You don't need anything, cause you already fine
God took my vision, you still have my eyes
And God, if you listening, I'm leading your blind

She call everybody toxic, so I know I'm not the only one
But shorty got that faucet, but I know I'm not the only one
I don't wanna jump to conclusions
Big Glock on me but I never wanna jump the gun
Shorty right beside me but I know it's all over

It was your beauty, your beauty
That pulled me to that loaded gun
Why did you choose me, choose me?
Yeah, it was better when it all was fun
You could've fooled me, fooled me
But it's over, what's done is done
I jump to conclusions, conclusions
Cause it's no way I'm just the only one
Late nights I laid inside and mesmerized and hypnotized
And it don't feel the same
You said my ways is toxic, I got options, I was stolen
Don't know who to blame
I'm still your ride or die, you cross my mind a thousand times
Or so throughout the day
I wanna call your phone, my pride is gone, it's gone
I just don't know what to say

She call everybody toxic, so I know I'm not the only one
But shorty got that faucet, but I know I'm not the only one
I wanna jump to conclusions
Big Glock on me but I never wanna jump the gun
Shorty right beside me but I know it's all over

I'll never be the same
I will never be the same
I will never be the same
I'll never be the same
I will never be the same
I will never be the same
I'll never be the same
