

I'm Not Special

Supa Bwe

I don't believe in the devil
These bad hoes goin' get me in trouble
Do ya' dig, like through the rubble?
All this liquor in me got me seeing double

I'm not special
These off-whites don't make me special
You drip harder and get wetter
All this Gucci on me make me feel better
All this Gucci on me make me feel feathered
Fly shit only, bad bitch never lonely
Only smoking what she roll me
That's my wotie
Bad bitch make me feel better
All this Gucci on me make me feel

Make me feel, baby, show me something real
Something real, I just want to feel, yeah
Oh yeah

I don't believe in the devil
These bad hoes goin' get me in trouble
Do ya' dig, like through the rubble?
All this liquor in me got me seeing double
Do ya' dig?

It's all around the world
We're being chased by oblivion
Walk around my whip, they ask you "Where you from?"
Gladiators off a rolling stadium

I'm not special
These off-whites don't make me special
You drip harder and get wetter
All this Gucci on me make me feel better
All this Gucci on me make me feel feathered
Fly shit only, bad bitch never lonely
Only smoking what she roll me
That's my wotie
Bad bitch make me feel better
All this Gucci on me make me feel

Make me feel, baby, show me something real
Something real, I just want to feel, yeah
Oh yeah, oh

It's all around the world
We're being chased while we're young
Walk around my whip, they ask you "Where you from?"
Gladiators off a rolling stadium
It's all around the world
We're being chased while we're young
Walk around my whip, they ask you "Where you from?"
Gladiators off a rolling stadium
It's all around the world
We're being chased while we're young
Walk around my whip, they ask you "Where you from?"

Gladiators off a rolling stadium
