

"Her kisses be feeling like-"

I got envy on me drippin', on me drippin', on me drippin'  
I got envy on me drippin', on me drippin', on me drippin'

Her kisses be feeling like gentle cold, silver and gold  
Her kisses be feeling like gentle cold, silver and gold

Her name was Jubilee  
Met her when we were children  
Now she looking at me differently  
I'ma watch you do you  
You're startling me  
You're startling me  
You're startling me  
(Envy on me drippin')

I got envy on me drippin', on me drippin', on me drippin'  
I got envy on me drippin', on me drippin', on me drippin'

Her kisses be feeling like gentle cold, silver and gold  
Her kisses be feeling like Special K, Special K

Her name was Jubilee  
Met her when we were children  
Now she looking at me differently  
I'ma watch you do you  
You're startling me  
You're startling me  
You're startling me

I got envy on me drippin', on me drippin', on me drippin'  
I got envy on me drippin', on me drippin', on me drippin'  
(On me, me, me, me, you, you, me)

You should do you  
Instead of judging me  
I'ma watch you do you  
I'ma watch you do you  
And I'ma do me  
Look at me (you're startling me)  
You should do you (you're startling me)

I got envy on me drippin', on me drippin', on me drippin'  
I got envy on me drippin', on me drippin', on me drippin'
