

PERFECTLY HUMAN

Supa Bwe

You come with complications and I hope I come correct
God told us practice patience and I hope I stand the test
You're the closest thing to Heaven, you're as close as I'll ever get
When we close together, I can't do much but win

You and I are stardust and when we die we will be the wind
You and I are perfect, we are perfectly human
You and I are refugees in a capitalist system
You and I are perfect, we are perfectly human

You and I are stardust and when we die we will be the wind
You and I are perfect, we are perfectly human
You and I are refugees in a capitalist system
You and I are perfect, we are perfectly human
