

Up Right Now

Supa Bwe

Feel like it's my time, just wanna spend some with you
'Cause girl I'm up right now, let's grab this table for two
I'm countin' up right now, up up right now
I was down for a while, almost down for the count
But girl I'm up right now, you was down when I was down
I was down for a while, almost down for the count

I'm countin' up right now, right now, right now, yeah right now
I'm countin' up right now, right now, right now, yeah right now
I'm countin' up right now, I'm up right now
I was down for a while, almost down for the count
But girl I'm up right now, you was down when I was down
I was down for a while, almost down for the count
I'm countin' up

I can't wait to slide
Spend a couple dollars on you for the night
The smile that makes me smile is right here in my sight
Tryna spend all of my time with you (count it up)
Hour one, hour two (count it up)
Down for me, down for you
And I'm up right now, yeah
Hella love, hella trust right now, yeah
Never gon' break that
Get in the car
Loser, we skrt-ing on all
Lucifer's plans, we with God
No other route, without a shadow of doubt
We never down for the count

I'm countin' up right now, right now, right now, yeah right now
Right now, right now, right now, yeah right now
Up right now, up up right now
I'm up right now, up up right now
