

# Carry The Can

## Super Furry Animals

Have you ever seen the windows cry, as rain passes by?  
Winter's branches making faces as you look to the sky  
Constellations form a screaming mouth, tormented and torn  
Evolution stops right here with me, my descendants will be fish  
So is it time to carry the can? Is it part of the plan to be here?

(Carry the can)

You'll see me with my sun dried nose and my frostbitten toes, existing

(Carry the can)

Operating

(Carry the can)

Carry the can

Get prepared for the old orders to collapse and demise  
There'll be no jumbo jets or radio cassettes left to hear  
Information superhighway dug up, cracked and deformed  
All the pylons twisted out of shape, their wires undone  
So is it time to carry the can? Is it part of the plan to be here?

(Carry the can)

You'll see me with my sun dried nose and my frostbitten toes, existing

(Carry the can)

Operating

(Carry the can)

Carry the can

Who are we? Who are we?

To sustain, complain

So is it time to carry the can? Is it part of the plan to be here?

(Carry the can)

You'll see me with my sun dried nose and my frostbitten toes, existing

(Carry the can)

Operating

(Carry the can)

Got to feel

(Carry the can)

Carry the can

Who are we? Who are we?

To sustain, complain

So is it time to carry the can?

Ooh, I dunno
