

It's Not the End of the World?

Super Furry Animals

When you fall asleep
Before the end of the day
You start to worry
Like when the taxi comes
To take you away
When you're in no hurry
Yet as our hair turns white
All the stars still shine so bright, above
At least it's not the end of the world
We could live it large
Because we're only old once
Let's make a difference
Turn all the hate in the world
Into a mocking bird
Make it fly away
Yet as our hair turns gray
Everything is far from A-Okay
At least it's not the end of the world
No, no
At least it's not the end of the world
