Open the heavy door
Once the dazzling light comes in
The gimmick you lure into your dreams
Will shake your heart, lyrics and moves

Number one, the best, so hot place
I'm feeling great, the stage is my space
Steadily, slowly
Step out, set out
Take my hands, get a boom, boom
Right now, ready go go
Your dull daily routine
Now change to the show

A tumble ring that crosses space and time
A dangerous magical juggling
An all-night circus, this is the tent top
What have you come to see?

(All you people)

(Jump) Tonight, you're already dreaming
(Jumping now) In this crazy fever
(Lose control) We are circus, we are circus
(Jumping now) We are circus
Everybody, ready, go

Place your body on this soft chaff
Hey watch it, show must go on
A secret trick, unbelievable magic
Amazing, amazing, everybody give me attention

Nothing above this best mind
Your heart is getting high
In a surprised state we fly into nights
Our fashion is the music and fest
You become to feel the best
Trance it now, sing it, boom, boom, boom, yeah

No one can stop us
Once we're in we'll never come back
An all-night circus, this is the tent top
What is it that you seek?

(All you people)
(Jump) Tonight, you're already dreaming
(Jumping now) In this crazy fever
(Lose control) We are circus, we are circus
(Jumping now) We are circus

Until the sun falls and rises
Until the moon disappears with laughter
An all-night circus, this is the tent top
What do you see?
