Everybody, run! This is show time
Don't stop dancing, right now is so high
Raise your voice, spread your arms, flap your wings freely tonight

Everybody's gonna lose it
Look at your increasing heartbeat, now
Everybody's gonna sing it
That's a sign of your true self surfacing
With a cold glass in one hand, a wholehearted "cheers!"
Everybody's gonna lose it tonight

Break your shell of doubt and step out
The tomorrow you'll confront will be filled with stars
Say goodbye to dull days!

Everybody, show them your deepest soul now
You keep singing, you're so nice
Raise your hands, jump up and down, up to the sky tonight

Everybody's gonna lose it
Once the froth has overflowed, now
Everybody's gonna sing it
Place your lips on the rim of the glass
If you laugh with your all of your heart, we can become one
Everybody's gonna lose it tonight, everybody's gonna lose it tonight

Cross over, here's the world you longed for written in your dreams
Spring starts with you and it's sparkling
Say goodbye to your fleeting past
