In the end me and you, we're just animals

(Oh oh oh oh oh oh oh)

(Oh oh oh oh oh oh oh)

We're just animals

(Oh oh oh oh oh oh oh)

You've melted me like this

In the end me and you, we're just animals

(Oh oh oh oh oh oh oh)

You make me desperately want you

In the end me and you, we're just animals

I'm scared of this trembling

The leaves are plucked off by the painful times

I try to show my thorns but the gentle breeze

Keeps coming to me and quickly wraps around me

Right in between my heart, you came over me, so dazzling

The faraway look you gave me makes me stop in place

My growing heart shocks me, it wants you

I'll never fake it, baby if it's just us two (no)

(Oh oh oh)

It's hot, I'm about to get burned

It's dangerous but I'll still hold you

You've melted me like this

In the end me and you, we're just animals, yeah

I wanna make this moment explode

So come on baby come along

You make me desperately want you

In the end me and you, we're just animals

(Oh oh oh oh oh oh oh)

You've melted me like this

In the end me and you, we're just animals

(Oh oh oh oh oh oh oh)

You make me desperately want you

In the end me and you, we're just animals

Right when I finished talking

I tried to push you away but I'm being pulled by you again, no

In this very short moment, I'm just following my feelings

Wherever we go, I wanna go with you, go on and on

The moment our lips brushed, you came over me, so dazzling

The sunlight shining on me makes me stop in place

I'm thirsty, I'm parched, I want you

I'll never fake it, baby if it's just us two (no)

(Oh oh oh)

It's hot, I'm about to get burned

It's dangerous but I'll still hold you

You've melted me like this

In the end me and you, we're just animals, yeah

I wanna make this moment explode

So come on baby come along

You make me desperately want you

In the end me and you, we're just animals

(Oh oh oh oh oh oh oh)

You've melted me like this

In the end me and you, we're just animals
