

## Black Suit

Super Junior

The dazzling moonlight, a different night starts  
A white and crisp white  
I see myself reflected on the shop window  
I like what I see, I have a good feeling

Now Girl, I'm dy-dy-dy-dying  
I want you, no de-de-denying  
Without shaking, each face, each word  
We are gentlemen  
Close your eyes tonight

I followed your scent and lingered near you  
Then I dug in, aiming for a chance to captivate you

A black suit to steal your heart  
Your rouge shined toward me  
A breathtaking feeling, move it up  
You make me fall for you with just a hand gesture  
Feels like my heart will explode, mood  
A black suit to steal this night

The light chases me, a shadow stops underneath  
The true me was covered by a veil  
If you wanna know, hold my hand like destiny  
Our time has begun

Girl, I'm dy-dy-dy-dying  
I want you, No de-de-denying  
Without shaking, I'm walking toward you  
Just like a gentleman  
I'm gonna hold you in my arms tonight

Before your beautiful silhouette disappears  
I wanna deeply dig in  
Aiming for a chance to captivate you

A black suit to steal your heart  
Your rouge shined toward me  
A breathtaking feeling, move it up  
You make me fall for you with just a hand gesture  
Feels like my heart will explode, mood  
A black suit to steal this night

Your lips are so clear, feels like I can touch them  
My heart spills on top, I want you  
I wanna hold you and dancing in the dark  
Without anyone knowing  
Forget everything and follow me, yeah yeah yeah  
Your eyes only have me in them  
The whispers and even the breathing trembles in my ears  
The moment I see a chance

A black suit to steal your heart  
Your rouge smudges on my clothes  
A breathtaking feeling, heat it up  
All night, it burns up  
Even the sound of our breathing is hot, mood

A black suit to steal this night

Don't lose me, hey

This chance won't come back

Heat it up, all night I'm gonna shake you up

Even the sound of our breathing is hot, mood

So you won't forget me

A black suit to steal your heart
