Super Junior

It's weird, I can't explain us with words  
It's complicated, I can't get it straight  
We're just good friends  
But I'm afraid I'll lose you

What is this feeling? Why is my heart racing?  
When you come to me and look at me  
I don't know what to do, I act so stupid  
All of the playful actions now stay on my mind  
Feels like something's wrong, it's strange babe

Honestly, I'm confused  
When I think it's not, you make my heart flutter again  
You're smiling at me just like any other day  
But you look so pretty  
All day, why am I only thinking about you?  
It's weird, I'm confused about us

I'm curious about your feelings  
Am I the only one who suddenly changed?  
We know each other the best  
Sometimes, I wonder what emotions are behind those eyes?  
I wish I could read your mind

Am I mistaken? What am I to you?  
Now when you come into my arms like a habit  
I can't keep a straight face  
I used to be so comfortable with you  
Now everything about you seems different  
I shouldn't do this, it's strange babe

Honestly, I'm confused  
When I think it's not, you make my heart flutter again  
You're smiling at me just like any other day  
But you look so pretty  
All day, why am I only thinking about you?  
It's weird, I'm confused about us

Oh my god, my heart is pounding  
Like a red-cheek adolescent, I'm getting hot  
I don't know yet when I see you  
I know I'm just your guy friend  
Hide carefully, she might see me  
She might shake me up  
Your look makes my heart burn up  
I don't know, maybe I'll confess to you

If you feel the same way, don't play around anymore  
Tell me your honest feelings  
If this is love, what will happen to us?  
I don't think this can continue

I'm still confused (I'm confused)  
When I think it's not, you make my heart flutter again  
(My heart flutters even now)  
You care for me like you're my lover  
You look so pretty

I still keep thinking about you all day  
It's weird, I'm confused about us
