

Spin Up!

Super Junior

If you're stressed again today (hey)
Gather here (right)
I don't care about gender or occupation
The night has already begun, lose yourself, baam
Spin round and round like a crazy top (Spin Up!)
Let's go (Let's go) Let's flow (Let's flow)
See how the rabbit goes crazy over carrots, let's get it on

I'll keep rushing you so you won't stop still
Sometimes, the world seems crazy
I'm standing still but I'm dizzy
Everybody go, don't hesitate
Trust yourself to the music baby

Put an end to the tiring punishments
Feel the spin all over your body
In this world that keeps spinning
Trust yourself in it, enjoy the spin, spin up

Oh when you're miserable Yeah Yeah
Explode, make some noise, everyone
Your footsteps make up the bass line
Shake your hand
Over here, over here
Yeah hold my hand, I waited for you

You can act like you're not but your feet are already in play yeah
How about you trust yourself with me today?
I'm sure you're body tickles from this rhythm
Everybody go, stop stealing glances
Throw yourself as you get hotter, baby

Put an end to the tiring punishments
Feel the spin all over your body
In this world that keeps spinning
Trust yourself in it, enjoy the spin, spin up

Maybe I can take ya
Walk through the rhythm with me
Dance tonight, Yeah
Maybe I can take ya
Burn up the night
Dance tonight, Yeah

Look at me carefully, my swing is different
Let's feel the night tonight
Let's speed it up, so we can have more fun
Shake it and make some noise

Spinning round and round
It's alright if you stumble
Hey you, don't hesitate, hey you
We're the reps of the night
So scream like you're crazy

Put an end to the tiring punishments
Feel the spin all over your body

In this world that keeps spinning
Trust yourself in it, enjoy the spin, spin up

Maybe I can take ya
Walk through the rhythm with me
Dance tonight, Yeah
Maybe I can take ya
Burn up the night
Dance tonight, Yeah
