Super Whatevr

We got a lot in common  
Nothing in common at all  
But if you like being alone  
Whoa-oh

Oh my, I gotta stay awake  
Not gonna come out swinging  
Oh my, don't know if I can take  
Much more indecision  
But I can't define the way that you move  
Oh, I'm so sick without you

Oh my, at night I lay awake  
Contemplating on this vision  
Oh my, just give it a break  
You're everything in life that I was missing  
But I can't define the way that you move  
Oh I'm so sick without you  
Whoa-oh

We got a lot in common  
Nothing in common at all  
But if you like being alone  
Then come and find me

We got a lot of issues  
None that feel like getting resolved  
But if you like being alone  
Then come and find me  
If you like being alone  
Whoa-oh

Oh my, I gotta stay awake  
Not gonna come out swinging  
Oh my, don't know if I can take  
Much more indecision  
But I can't define the way that you move  
Oh I'm so sick without you

I wanna love you enough to leave you alone  
Wanna love you enough to leave you alone  
Wanna love you enough to leave you alone  
Wanna love you enough to leave you alone

We got a lot in common  
Nothing in common at all  
But if you like being alone  
Then come and find me

We got a lot of issues  
None that feel like getting resolved  
But if you like being alone  
Then come and find me  
If you like being alone  
Whoa-oh
