

For You

Super Whatevr

Hey, I don't wanna be the only one
Who stays awake at night
What if I decided
That they're creeping up on me?
And you can't seem to see
That I'm not sorry for the way I treated me
I'd like to think
That maybe being alone was best

'Cause all I wanna do
Is be there for you
But all I gotta do
Is be there for you

Paranoid
Darling would you like to take a break
I've been choking on
Every word you never said

But oh my love
Everything's gone wrong

All I wanna do
Is be there for you
But all I gotta do
Is be there for you
But I just can't keep up the pace
Gotta get outside my brain
'Cause all I wanna do
Is be there for you

And oh my my
I'm so tired
Oh my my
Let me taste the fire

All I wanna do
Is be there for you
But all I gotta do
Is be there for you
All I wanna do
Is be there for you
But all I gotta do
Is be there for you
'Cause all I wanna do
Is be there for you
But all I gotta do
Is be there for you
