

# When Doesn't The World End?

Super Whatevr

Hold me underwater  
Drown me in the sand

Oh, my god  
You've got it all figured out  
And this I know  
Is gonna be the death of me

And, oh, my love  
I've got this soul to figure out  
And this I know  
Will happen again and again and again

So hold me underwater  
And drown me in the sand

Oh, my god  
You've got it all figured out  
And this I know  
It never made much sense to me  
And, oh, my love  
I've got this life to figure out  
And this I know  
Will happen again and again and again and again

So hold me underwater  
And drown me in the sand  
So hold me underwater  
And drown me in the sand

Hold me underwater  
Drown me in the sand  
So hold me underwater  
And drown me in the sand  
So hold me underwater  
And drown me in the sand
