

## No school today

Superbus

You're sixteen, you're late at school  
You don't like working, I understand, it's cool  
You have a band but you haven't found a name  
You're not the same that's what your parents say

What about your life, before to be a rockstar  
What about your life, before to be a rockstar  
You say: no way I won't go to school  
Today what about the rules  
No more teachers, no more work  
I'm leaving with my band around the world  
No way I won't go to school  
Today what about the rules

You told your friends you wanted to leave  
They said "it's crazy", what are you doing?  
But they don't know, they really don't know  
What's happening on stage when your doing the show

What about your life, before to be a rockstar  
What about your life, before to be a rockstar  
You say: no way I won't go to school  
Today what about the rules  
No more teachers, no more work  
I'm leaving with my band around the world  
No way I won't go to school  
Today what about the rules  
No more teachers, no more work  
I'm leaving with my band around the world

No way I won't go to school  
Today what about the rules  
No more teachers, no more work  
I'm leaving with my band around the world

No way I won't go to school  
Today what about the rules  
No more teachers, no more work  
I'm leaving with my band around the world
