

# Cadmium

Superchunk

A serious end  
The serious air is calling  
But look around, look around  
Isn't the atmosphere charming?

Why do we ever go outside anymore?  
The air in here is cadmium red  
Why do we ever go outside anymore?  
The air in here is fine

I'll let you live inside my lungs  
You couldn't leave anyway  
I'll build you up till you are strong  
Till I can't breathe anyway  
I'll let you live inside my lungs  
You couldn't leave anyway  
I'll build you up till you are strong  
Till I can't breathe anyway  
Till I can't breathe anyway

Hit the one, that's self-destruct  
It's marked especially  
It's easy to read  
We'll light one up and celebrate our disease

Why do we ever go outside anymore?  
The air in here is cadmium red  
Why do we ever go outside anymore?

I'll let you live inside my lungs

Hit self-destruct
