

Care Less

Superchunk

I'm trying to care less
I'm trying to care less
Stripping off the skin
Until there's nothing left
I've been trying to care less, yeah

Laughing into the night
Smoke all around your lights
Smearing up the windows
Till we lose our need for sight

I'm trying to care less
I'm trying to care less
Don't make me remember
What I can't forget
I'm trying to care less, yeah

Whatever I do is right
Whatever I do is wrong
Whatever you do
Don't waste your life
Searching for a song

I'm trying to care less
I'm trying to care less, yeah

Every day is a dream and the dream is a test
I wake up with the birds, they think I'm a mess
They think I'm a mess
Yeah, yeah, yeah, yeah

But I've been trying to care less
I'm trying to care less
Burning off the haze
So we can take a breath
I'm trying to care less
I'm trying to care less, yeah
Trying to care less
I'm trying to care
