

Everything Hurts

Superchunk

Pull the knife from your side
The stitch from your heart
That's kept you from sleeping
Release the air from your [?]
Your nerves have been fried
And darkness comes creepin'

Hey listen

Yeah that's the sound of a light
That's beamed in at night
To keep your eyes wide and not blinking
It's a hum in your head
A crack in your bed
Wake up and you're sinking, sinking

Hey listen

Oh sometimes everything hurts
From your bones to your fur
But you kick and you joke
And smile through it

You're driving a hearse
They gave you the keys
But don't do it

It's our cult and your myth
Take care of yourself
Take care and don't join it
24 hours a day

It's time to destroy it

Hey listen

Hey listen

Oh sometimes everything hurts
From your bones to your fur
But you kick and you joke
And smile through it

You're driving a hearse
They gave you the keys
But don't do it

Sometimes everything hurts
From your bones to your fur
But you get back to work
And smile through it

You're driving a hearse
They gave you the keys
But don't do it

Don't do it

Don't do it
