

So Convinced

Superchunk

You are convinced
You are so sure
Your thoughts like oil
Black and pure
You are convinced that that's the cure

Hey! Now I'm asking you a question
But you know I got the headphones on again
And I think I know the answer to this one
No! Can you want 'til this song ends?

You think you'd read me like a text?
White's my pattern last I checked
It doesn't matter 'cause we'll go

Hey! Now I'm asking you a question
But you know I got my headphones on again
And I think I know the answer to this one?
No! And you can never go back

You, you can, you can never go back
You can never go back again
You, you can, you can never go back
You can never go back again
