

This Night

Superchunk

Take me out tonight
I still remember your taillights
Boy, they were right
All the way to the highway
And uptown was the life
I won't till uptown up and died
Here we are dancing
And tripping over the ash tray

Ooh-ooh-ooh-ooh-ooh-ooh

Oh, this night is like so many
But I still get a chill when you ring me
Yeah, this night flashes like a silver jenny
In the waves, like the promise that you bring me

The lights are on upstairs
I could go in the lasting air, listening
To a final draft of a mix tape
Time will grind you down
And time won't let you mess around
Do you feel like dancing?
It's getting dark and it's Sunday

Ooh-ooh-ooh-ooh-ooh-ooh

Yeah, this night is like so many
But I still get a chill when you ring me
Yeah, this night flashes like an orchid penny
With the promise of the lights and the sounds, will you send me
?

Yeah, this night is like so many
And I still get a chill when you ring me

Oh yeah, take me, take me out tonight
Oh yeah, take me, take me out tonight
Oh yeah, take me, take me out tonight
Oh yeah, take me, take me out tonight
